OAK 🍁

Oaks are strong-wooded, long-lived trees with excellent form and character. Some are noted for brilliant fall colour while others have persistent foliage. Oaks generally prefer a well-drained acid soil in full sun. Pin Oak will tolerate wet poorly drained soils.

White Oak #QUEAL
Quercus alba (20 m) Zone 4
 Handsome large native tree spreading 20 m. Pink foliage in spring becoming green in summer and burgundy in fall. Slow-growing. Ideal specimen for large area.
 175 cm.....159.99 50 mm.....369.99
 250 cm.....179.99 60 mm.....399.99

Swamp White Oak #QUEBI
Quercus bicolor (20 m) Zone 4
 Spreading native tree with a broad open round crown and a short trunk. Requires acid soil. Best in swampy situations or near stream banks. 15-20 m wide.
 250 cm.....189.99 70 mm.....449.99
 60 mm.....399.99

Scarlet Oak #QUECO
Quercus coccinea (15-20 m) Zone 4
 Handsome native tree. Lustrous dark green foliage becoming scarlet in fall. Prefers average to dry soil. 15-20 m wide.
 200 cm.....179.99 250 cm...15 gal.....189.99

Bur Oak #QUEMA
Quercus macrocarpa (20 m) Zone 3
 Slow-growing native tree spreading 20 m. Green foliage becoming yellow-brown in fall. Tolerates wet or dry soil.
 150 cm.....59.99 50 mm.....369.99
 200 cm.....149.99 60 mm.....399.99

Pin Oak #QUEPA
Quercus palustris (20 m) Zone 4
 Pyramidal form. Bright scarlet fall colour. Prefers moist soils. Native. 12 m wide.
 300 cm.....179.99 60 mm.....349.99
 50 mm.....319.99 70 mm.....399.99
