

Hi,

I want to take a moment to write and tell you what a fantastic experience we have had with your landscape designer, Peter Stevens.

A house is being built behind our and my husband was very concerned about the lack of privacy. We drove to Humber on the advice of our neighbours and Ray took us out to see some trees. He wasn't sure exactly what would work in our backyard he suggested that Peter come out and take a look.

Peter called us right away and made an appointment. He came out and met with us. We discussed the best trees for the backyard, then worked out a plan to beautify the gardens - both front and back - as well.

Within days, Peter arranged for a load of men to carry and plant large cedars in the backyard. The next day, he planted perennials and supervised rows of beautiful boxwood down our front walk. Whenever there was a slight issue he stood with me for however long it took to figure out just the right solution. No job was too hard or too small for his time and complete focus.

Our yards are absolutely transformed. We are thrilled that we made the trip to Humber that day. We will recommend Humber and Peter Stevens and all of your crew to everyone we know.

Thanks for hiring only the best

All the best
Randi
