### AZALEA HYBRIDS ☐ ●

Azaleas provide brilliant displays of colour in late May and require little care. They grow best in rich, well-drained, acidic soil. Part shade, light filtered shade or high open are preferable.

#### Evergreen Azaleas

(100-125cm) Zone 6. Rich dark green foliage in spring and summer becoming tinged with shades of red, yellow or purple in fall or winter. The foliage of evergreen azaleas requires protection from winter sun and wind.

**NO GUARANTEE OVER WINTER**

**Girard's White** #AZAHPW  
White

**Karen** #AZAHBKA  
Lavender-purple

**Stewartstonian** #AZAHBST  
Bright red

Above 3 varieties:  
2 gal.....42.99

#### Deciduous Azaleas

(125 cm) Zone 6. These varieties lose their leaves in autumn and consequently are more tolerant of winter conditions. Protection from winter sun and wind is still recommended.

**NO GUARANTEE OVER WINTER**

**Weston's Innocence** #AZAHBWI

### RHODODENDRON HYBRIDS ☐ ●

Rhododendrons are one of the most spectacular flowering plants and provide brilliant displays of colour in late spring. They require rich, acidic soil, protection from sweeping winds and **EXCELLENT DRAINAGE**. Part shade, light filtered shade or high open shade are preferable. Avoid intense sunlight (morning sun is preferable to afternoon sun). Protect the foliage in winter from drying winds and sun. Burlap or anti-desiccant sprays are suitable for this purpose. Pine needles, oak leaves and evergreen boughs provide additional protection.

#### Dwarf Lepidote (Small Leaved) Rhododendron Hybrids

(60 cm) Zone 5. Ideal for rock gardens, these hardy hybrids have a low rounded form, small neat foliage and showy spring flowers.

**100% TWO YEAR GUARANTEE**

**Karin Seleger** #RHOHBKS

### Lepidote (Small Leaved)

#### Rhododendron Hybrids

(125-150 cm) Zone 5

These hybrids have small leaves (usually less than 10 cm in length), which are scaly and often have a distinct spicy fragrance. They are hardier and more compact than elepidote rhododendrons and bloom earlier. Their dark green leaves become rich mahogany-purple in fall and winter. Very floriferous and easy to grow.

**Heather #CALVU**

*Calluna vulgaris* (60 cm spread) Zone 5  
Evergreen ground cover 10-40 cm tall. White, pink, purple or red flowers in late summer. Avoid windy sites, drought and over-fertilizing.  
Use 100% peat moss as a growing medium.  
1 gal.....19.99

**Bunchberry #CORCA**

*Cornus canadensis* (15 cm) Zone 3  
Beautiful native semi-evergreen ground cover spreading 60 cm. White flowers in spring followed by bright red edible fruit. Reddish-green foliage in spring turns dark green in summer and then red to purple in fall and winter. Best in rich, cool, moist, acidic soil.  
4" pot.....5.99    1 gal.....16.99

**COTONEASTER**

A plant for all seasons. Cotoneaster have pinkish-white flowers in spring and inedible striking red fruit in fall which often persists into winter. Deciduous varieties show excellent bronze to red-purple fall colouration while evergreen varieties maintain glossy dark green foliage for most of the year. Excellent as a ground cover, masses, slopes, rock gardens, shrub borders or as a low specimen shrub. Also available in tree form.

**Tom Thumb Cotoneaster #COTAPT**

*Cotoneaster apiculatus* 'Tom Thumb'  
(35 cm) Zone 5  
Delightful variety with dense compact mounding form spreading to 125 cm. White flowers in spring followed by red berries. Lustrous dark green foliage turning red in fall.  
2 gal.....22.99

**Cranberry Cotoneaster #COTAP**

*Cotoneaster apiculatus* (100 cm) Zone 4  
Spreads to 125 cm. Pink-white flowers in spring followed by large bright red berries. Shiny green leaves turn bright red in fall. Deciduous.  
2 gal.....22.99

**Bearberry Cotoneaster #COTDA**

*Cotoneaster dammeri* (15 cm) Zone 4  
Excellent semi-evergreen creeping ground cover spreading 100-125 cm. Dark green glossy oval foliage. White flowers in spring followed by red berries in fall.  
1 gal.....14.99    2 gal.....19.99

**Coral beauty Cotoneaster #COTDACB**

*Cotoneaster dammeri* 'Coral Beauty'  
(75 cm) Zone 4  
Low mounding semi-evergreen variety with arching branches spreading to 2 m. Pinkish-white flowers in spring and red berries in fall. Good for ground cover or holding slopes  
1 gal.....14.99    2 gal.....19.99

**Rockspray Cotoneaster #COTHO**

*Cotoneaster horizontalis* (60 cm) Zone 5  
Low deciduous variety spreading to 1 m. Leaves arranged in dense herring-bone pattern, arching branches. Pink flowers in spring and red berries in fall.  
2 gal.....19.99

**DAPHNE**

Excellent slow growing ground cover plants with exquisitely fragrant flowers in spring. Prefers moist, well-drained soil. Protect from winter sun and wind. Does well in light shade with protection from hot afternoon sun. Avoid pruning or transplanting.

**Rose Daphne #DAPCN**

*Daphne cneorum* (50 cm) Zone 5  
Low compact mounding evergreen with very fragrant deep pink flowers in spring.  
**NOT AVAILABLE FOR 2017**

**Burkwood Daphne**

*Daphne burkwoodii* Zone 5  
Low spreading evergreen to semi-evergreen with very fragrant pink-white flowers in spring.

Varieties Available:

**Carol Mackie (100 cm) #DAPBUM**

White flowers, variegated green-white foliage

**NOT AVAILABLE FOR 2017**

**HEATH****Spring Heath**

*Erica carnea* (60 cm spread) Zone 5  
Low spreading ground cover 30 cm tall and closely related to Heather. Pink, red or white flowers in spring. Use 100% peat moss as the growing medium.

1 gal.....19.99

**EUONYMUS**

*Euonymus fortunei*

Sturdy evergreen ideal as a foundation planting, ground cover, medium height hedge or accent plant. Most require full sun to part shade with some varieties tolerating full shade. Will climb if supported.

2 gal.....22.99 3 gal.....29.99

5 gal.....49.99

(Except when staked)

Some varieties also available in tree form:

120-150 cm...7 gal...99.99

**Blondy (PW)** #EUOFBL

(100 cm) Zone 5

Bright gold-green variegated foliage. Mounding or Climbing.

2 gal.....32.99

**Canadale Gold** #EUOFOCA

(100 cm) Zone 5

Bright green-gold variegated foliage.

**Emerald Gaiety** #EUOFOGA

(100 cm) Zone 5

Striking green leaves edged in silver. Particularly showy in shady locations.

**Moonshadow** #EUOFOMS

(100 cm) Zone 5

Deep green leaves with bright yellow center.

**Purple Winter Creeper** #EUOFOCO

*E. 'Coloratus'* (40 cm) Zone 5

Can be used as a ground cover or climbing vine.

Green foliage turns deep purple-red in fall.

2 m spread.

1 gal.....12.99 2 gal.....22.99

**Sarcoxie** #EUOFOSA

(100 cm) Zone 5

Lustrous dark green foliage all year in sun or shade.

**Sungold** #EUOFOSG

(100 cm) Zone 5

Bright gold foliage with green center.

**Wintergreen** #GAUPR

*Gaultheria procumbens* (15 cm) Zone 4

Beautiful native evergreen ground cover spreading 60-90 cm. Pinkish-white flowers in spring followed by bright red edible fruit. Reddish-green foliage in spring turning dark green in summer and then purple in fall and winter. Foliage is edible and the source of wintergreen oil. Best in rich, moist, acidic soil.

4" pot.....5.99 1 gal.....16.99

**GOLDEN BROOM (WOADWAXEN)** #GENLY

*Genista lydia* (15 cm) Zone 6

Low ground cover with green stems and yellow flowers in May-June. 60 cm spread.

**NO GUARANTEE OVER WINTER**

Variety available:

**Bangle (PW)**

Zone 5. Dwarf and compact with very bright golden-yellow flowers. 60 cm high and wide.

2 gal.....34.99

**NO GUARANTEE OVER WINTER**

**Vancouver Golden Broom** #GENPIVG

*Genista pilosa* 'Vancouver Gold' (30-40 cm) Zone 6

Arching green stems and yellow flowers in May-June. Ideal ground cover for infertile sandy soil.

100 cm spread.

**NO GUARANTEE OVER WINTER**

**NOT AVAILABLE FOR 2017**

**English (Baltic) Ivy** #HEDHEBA

*Hedera helix* 'Baltica' (5 m) Zone 5

Valued for winter-persistent foliage and ability to thrive in deep shade. Also makes an excellent evergreen ground cover. As a vine it is self-clinging but needs a year or two to establish a good root system before starting to climb.

1 gal...unstaked....12.99 2 gal.....22.99

1 gal...staked.....17.99

**HOLLY**

**Blue Holly**

*Ilex meserveae* (2 m) Zone 5

Superior breeds permits the northern gardener to grow the glossy-leaved, heavily berried English type of holly. Male and female plants required for fruit production. 2 m wide.

**Blue Prince** male, pollinator #ILEMEBP

**Blue Princess** female, red berries #ILEMEPR

**Golden Sword**

**#YUCFIGS**

(100 cm) Zone 4. Rich yellow leaves with green margin.

**NOT AVAILABLE FOR 2017**

**WINTERIZING EVERGREENS**

Most evergreens are completely hardy and need little winter protection. The exceptions are Dwarf Alberta Spruce and broadleaved evergreens such as Rhododendrons as these plants are susceptible to sunburn. We recommend you wrap these plants in late fall with burlap (do not use plastic) to shade them from sun, which is the strongest in southern and western exposures. The same applies to newly planted upright evergreens which have had no chance to establish deep roots. By wrapping them you will prevent winter damage due to dehydration. Thoroughly watering evergreens before the onset of winter is essential.

Most winter damage is not caused by cold, but by wind and sun in later winter when the soil is deeply frozen. For this reason the best way to protect plants such as Rhododendrons is first by applying a 20 cm layer of mulch over the roots and second by creating a barrier with burlap to keep out wind and sun. Application of an anti-desiccant also affords protection.

Upright evergreens are often damaged by heavy snowfall and ice. To prevent this there are special nettings available which will hold the branches tight and prevent winter damage.

**WINTER WRAP**

Protects your evergreens and shrubs from freezing rain and heavy snowfalls. Easy to apply, easy to store, reusable year after year.

**Retail Delivery and Planting Charges**

HST extra. Delivery charges on price labels indicate minimum charge for curbside delivery within our local delivery area (Zone 'A'). Due to the rising fuel costs, a fuel surcharge may be implemented at any time throughout the year without notice. Minimum delivery charge of \$55.00 applies.
