AZALEA HYBRIDS ☐ ●

Azaleas provide brilliant displays of colour in late May and require little care. They grow best in rich, well-drained, acidic soil. Part shade, light filtered shade or high light opening are preferable.

Evergreen Azaleas

(100-125cm) Zone 6. Rich dark green foliage in spring and summer becoming tinged with shades of red, yellow or purple in fall or winter. The foliage of evergreen azaleas requires protection from winter sun and wind.

RHODODENDRON HYBRIDS ☐ ●

Rhododendrons are one of the most spectacular flowering plants and provide brilliant displays of colour in late spring. They require rich, acidic soil, protection from sweeping winds and **EXCELLENT DRAINAGE**. Part shade, light filtered shade or high open shade are preferable. Avoid intense sunlight (morning sun is preferable to afternoon sun). Protect the foliage in winter from drying winds and sun. Burlap or anti-desiccant sprays are suitable for this purpose. Pine needles, oak leaves and evergreen boughs provide additional protection.

Dwarf Lepidote (Small Leaved) Rhododendron Hybrids

(60 cm) Zone 5. Ideal for rock gardens, these hardy hybrids have a low rounded form, small neat foliage and showy spring flowers.

TWO YEAR GUARANTEE

| 3 gal.....59.99 | |

Lepidote (Small Leaved) Rhododendron Hybrids

(125-150 cm) Zone 5

These hybrids have small leaves (usually less than 10 cm in length), which are scaly and often have a distinct spicy fragrance. They are hardier and more compact than elepidote rhododendrons and bloom earlier. Their dark green leaves become rich mahogany-purple in fall and winter. Very floriferous and easy to grow.

TWO YEAR GUARANTEE

- Heather #CALVU**
Calluna vulgaris (60 cm spread) Zone 5
Evergreen ground cover 10-40 cm tall. White, pink, purple or red flowers in late summer. Avoid windy sites, drought and over-fertilizing. Use 100% peat moss as a growing medium.
1 gal.....19.99

- Bunchberry #CORCA**
Cornus canadensis (15 cm) Zone 3
Beautiful native semi-evergreen ground cover spreading 60 cm. White flowers in spring followed by bright red edible fruit. Reddish-green foliage in spring turns dark green in summer and then red to purple in fall and winter. Best in rich, cool, moist, acidic soil.
4" pot.....6.99 1 gal.....19.99

COTONEASTER

A plant for all seasons. Cotoneaster have pinkish-white flowers in spring and inedible striking red fruit in fall which often persists into winter. Deciduous varieties show excellent bronze to red-purple fall colouration while evergreen varieties maintain glossy dark green foliage for most of the year. Excellent as a ground cover, masses, slopes, rock gardens, shrub borders or as a low specimen shrub.

- Tom Thumb Cotoneaster #COTAPT**
Cotoneaster apiculatus 'Tom Thumb'
(35 cm) Zone 5
Delightful variety with dense compact mounding form spreading to 125 cm. White flowers in spring followed by red berries. Lustrous dark green foliage turning red in fall.
2 gal.....26.99

- Cranberry Cotoneaster #COTAP**
Cotoneaster apiculatus (100 cm) Zone 4
Spreads to 125 cm. Pink-white flowers in spring followed by large bright red berries. Shiny green leaves turn bright red in fall. Deciduous.
2 gal.....24.99

- Bearberry Cotoneaster #COTDA**
Cotoneaster dammeri (15 cm) Zone 4
Excellent semi-evergreen creeping ground cover spreading 100-125 cm. Dark green glossy oval foliage. White flowers in spring followed by red berries in fall.
1 gal.....16.99 2 gal.....21.99

- Coral beauty Cotoneaster #COTDACB**
Cotoneaster dammeri 'Coral Beauty'
(75 cm) Zone 4
Low mounding semi-evergreen variety with arching branches spreading to 2 m. Pinkish-white flowers in spring and red berries in fall. Good for ground cover or holding slopes.
1 gal.....14.99 2 gal.....21.99

- Rockspray Cotoneaster #COTHO**
Cotoneaster horizontalis (60 cm) Zone 5
Low deciduous variety spreading to 1 m. Leaves arranged in dense herring-bone pattern, arching branches. Pink flowers in spring and red berries in fall.
3 gal.....34.99

DAPHNE

Excellent slow growing ground cover plants with exquisitely fragrant flowers in spring. Prefers moist, well-drained soil. Protect from winter sun and wind. Does well in light shade with protection from hot afternoon sun. Avoid pruning or transplanting.

- Burkwood Daphne**
Daphne burkwoodii Zone 5
Low spreading evergreen to semi-evergreen with very fragrant pink-white flowers in spring.
Variety Available:
Carol Mackie (100 cm) #DAPBUM
Variegated green foliage with creamy-white margins
40 cm.....fp.....79.99
60 cm.....7 gal.....89.99

- Lawrence Crocker #DAMELC**
Daphne X medfordensis Zone 5.
Small mounding daphne with fragrant rose flowers held against a green background.
15 cm.....1 gal.....44.99

For plant insurance use Nutrite Bonemeal 4-10-0

- Slow release, non-burning formula
- Ideal for transplanting all types of plants
- Encourages root development and healthy growth
- Enriched with calcium

Caucasian Daphne

Daphne X transatlantica Zone 5
Rounded semi-evergreen to deciduous shrub with very fragrant white flowers with slight pink blush in cooler weather. Blooms throughout spring and sporadically in summer and fall.

Variety Available:

Eternal Fragrance (100 cm) #DAPTREF
White flowers
25 cm.....2 gal.....79.99

HEATH**Spring Heath**

Erica carnea (60 cm spread) Zone 5
Low spreading ground cover 30 cm tall and closely related to Heather. Pink, red or white flowers in spring. Use 100% peat moss as the growing medium.

**NO GUARANTEE OVER WINTER
NOT AVAILABLE FOR 2018**

EUONYMUS

Euonymus fortunei

Sturdy evergreen ideal as a foundation planting, ground cover, medium height hedge or accent plant. Most require full sun to part shade with some varieties tolerating full shade. Will climb if supported.

2 gal.....24.99 3 gal.....39.99
5 gal.....57.99
(Except where stated)

Some varieties also available in tree form:
100-125 cm.....5-7 gal.....109.99-139.99

Blondy (PW) ☀️🌑 #EUOFOBL
(100 cm) Zone 5
Bright gold-green variegated foliage. Mounding or climbing.
2 gal.....39.99

Canadale Gold ☀️🌑 #EUOFOCA
(100 cm) Zone 5
Bright green-gold variegated foliage.

Emerald N' Gold #EUOFOEG
(100cm) Zone 5
Mounding or climbing evergreen shrub with bright gold-green variegated foliage.

Emerald Gaiety ☀️🌑 #EUOFOGA
(100 cm) Zone 5
Striking green leaves edged in silver. Particularly showy in shady locations.

Moonshadow ☀️🌑 #EUOFOMS
(100 cm) Zone 5
Deep green leaves with bright yellow center.

Purple Winter Creeper ☀️🌑 #EUOFOCO
E. 'Coloratus' (40 cm) Zone 5
Can be used as a ground cover or climbing vine. Green foliage turns deep purple-red in fall. 2 m spread.
1 gal.....14.99 2 gal.....22.99

Sarcoxie ☀️🌑 #EUOFOFA
(100 cm) Zone 5
Lustrous dark green foliage all year in sun or shade.

Sungold ☀️🌑 #EUOFOFG
(100 cm) Zone 5
Bright gold foliage with green center.
2 gal.....32.99

**Wintergreen** 🌑🌑 #GAUPR

Gaultheria procumbens (15 cm) Zone 4
Beautiful native evergreen ground cover spreading 60-90 cm. Pinkish-white flowers in spring followed by bright red edible fruit. Reddish-green foliage in spring turning dark green in summer and then purple in fall and winter. Foliage is edible and the source of wintergreen oil. Best in rich, moist, acidic soil.
4" pot.....6.99 1 gal.....19.99

English (Baltic) Ivy #HEDHEBA

Hedera helix 'Baltica' (5 m) Zone 5
Valued for winter-persistent foliage and ability to thrive in deep shade. Also makes an excellent evergreen ground cover. As a vine it is self-clinging but needs a year or two to establish a good root system before starting to climb.
1 gal...unstaked.....14.99 2 gal.....24.99
1 gal...staked.....19.99

HOLLY**Blue Holly** ☀️🌑

Ilex meserveae (2 m) Zone 5
Superior breeds permits the northern gardener to grow the glossy-leaved, heavily berried English type of holly. Male and female plants required for fruit production. 2 m wide.

Blue Prince male, pollinator #ILEMEBP
Blue Princess female, red berries #ILEMEPR
3 gal.....39.99

Royalty Combination #ILEMERO

Blue Prince & Princess together in the same pot ensures pollination and bright red berries.
3 gal.....42.99 5 gal.....57.99

Compact Inkberry #ILEGLCO

Ilex glabra 'Compacta' (100-125 cm) Zone 5
Rounded evergreen with dark green foliage. Female. Lustrous inedible black berries when pollinated by a male. Prefers constantly moist, acidic soil.

3 gal.....42.99

Sky Pencil Japanese Holly #ILECRSP

Ilex crenata 'Sky Pencil' (3 m) Zone 6
Slow-growing narrow upright evergreen 60-90 cm wide. Glossy deep green foliage. Small white flowers in spring. Female. Inedible black berries when pollinated by a male.

3 gal.....42.99

MOUNTAIN LAUREL ☀️🌑

Kalmia latifolia (2-4 m) Zone 6
Beautiful native evergreen. Good companion for (and requires similar conditions to) rhododendrons. Beautiful fragrant white to pink flowers in late spring. Ideal for naturalizing.

Variety available:

Elf #KALLAEL
(60 cm) soft pink-maroon
2 gal.....64.99

Rainbow Drooping Leucothoë ☀️🌑 #LEUFORA

Leucothoë fontanesiana 'Rainbow'
(100 cm) Zone 6
Leathery green leaves variegated with cream, pink, and yellow, turn bronzy-purple in fall. Drooping clusters of creamy-white flowers bloom in late spring.

2 gal.....44.99

Oregon Grape Holly #MAHAQ

Mahonia aquifolium (150 cm) Zone 5
Holly-like glossy green foliage that turns bronze in winter. Yellow flowers in June followed by inedible blue berries. Native.
3 gal.....57.99

Canby's Pachistima #PAXCA

Paxistima canbyi (30 cm) Zone 2
Rich dark green foliage all year. Good for rock garden, ground cover or low hedge. Native.
1 gal.....19.99

JAPANESE PIERIS

Pieris japonica (125-150 cm) Zone 5
A beautiful evergreen native to Japan. Good companion for (and requires similar conditions to) rhododendrons. Fragrant showy white, pink or red flower clusters resemble lily-of-the-valley. Foliage often emerges rich bronze to red, turning lustrous dark green in summer.

Varieties available:

Flaming Silver #PIEJAFS
(100 cm) white flowers, variegated foliage
3 gal.....44.99

Katsura #PIEJAKT
(150 cm) pink flowers
2 gal.....49.99

Little Heath #PIEJALH
(60 cm) white flowers, variegated foliage
2 gal.....49.99

Mountain Fire #PIEJAMF
(150 cm) white flowers
3 gal.....44.99

Spring Snow #PIEJASS
(100 cm) white flowers
2 gal.....49.99

HUMBER LOYALTY DOLLARS

Register by providing the cashier with your phone number.

Then each purchase of regular or discounted items, up to \$1000, earns the equivalent of 2% in the form of *Humber Loyalty Dollars*, redeemable on future purchases only.

YUCCA

Excellent in hot dry areas, this unique clump-forming evergreen with long narrow spiky leaves reminds one of Mexico or the southwestern desert. It quickly becomes the focal point of the garden with its large spikes of fragrant creamy-white flowers in summer, which are often visited by hummingbirds. Useful to add interest or focus in flower beds.

Adam's Needle

#YUCFI

Yucca filamentosa

Creamy white flowers on tall spikes in July-August. Green sword-like leaves. Native.

2-3 gal.....29.99

Varieties available:

Bright Edge

#YUCFIBE

(80cm) Zone 4. Green foliage edged with bright gold.

3 gal.....37.99

Colour Guard

#YUCFIGG

(80 cm) Zone 4. Green foliage with bright yellow centers.

2 gal.....34.99 3 gal.....39.99

Golden Sword

#YUCFIGS

(100 cm) Zone 4. Rich yellow leaves with green margin.

2 gal.....39.99 3 gal.....57.99

WINTERIZING EVERGREENS

Most evergreens are completely hardy and need little winter protection. The exceptions are Dwarf Alberta Spruce and broadleaved evergreens such as Rhododendrons as these plants are susceptible to sunburn. We recommend you wrap these plants in late fall with burlap (do not use plastic) to shade them from sun, which is the strongest in southern and western exposures. The same applies to newly planted upright evergreens which have had no chance to establish deep roots. By wrapping them you will prevent winter damage due to dehydration. Thoroughly watering evergreens before the onset of winter is essential.

Most winter damage is not caused by cold, but by wind and sun in late winter when the soil is deeply frozen. For this reason the best way to protect plants such as Rhododendrons is first by applying a 20 cm layer of mulch over the roots and second by creating a barrier with burlap to keep out wind and sun. Application of an anti-desiccant also affords protection.

Upright evergreens are often damaged by heavy snowfall and ice. To prevent this there are special nettings available which will hold the branches tight and prevent winter damage.

WINTER WRAP

Protects your evergreens and shrubs from freezing rain and heavy snowfalls. Easy to apply, easy to store, reusable year after year.

For plant insurance use Nutrite Bonemeal 4-10-0

- Slow release, non-burning formula
- Ideal for transplanting all types of plants
- Encourages root development and healthy growth
- Enriched with calcium
